

## An Upgraded 1G Network

Cellular providers around the globe are constantly working to improve the quality of their communications networks. No matter how advanced the technology is or how powerful the device in our hand becomes, there always seems to be a “corner” of the earth that has no coverage. There will always be limitations in the providers ability to give us what we “need”.

When I turn the pages of my life memories back about 40 years I can still remember being in church (maybe Sunday School) singing the words of a once familiar song called Jehovah Jireh. You might remember it as well,

*Jehovah Jireh,  
My provider, His grace is sufficient  
For me, for me, for me...*

*My God shall supply all my needs  
According to His riches in glory  
He will give His angels charge over me*

*Jehovah Jireh cares for me, for me, for me  
Jehovah Jireh cares for me*

Jehovah Jireh is one of the many names ascribed to the God who we serve. It means “the Lord will provide”. This name speaks to the character of the one God (1G) in heaven who loves and cares deeply for his people.

Throughout scripture we can read the many accounts of God’s provision for his people. From the alter where Abraham was asked to sacrifice his son Isaac, (Gen. 22) to the edge of

the waters on the Red Sea (Ex. 14), all the way to the mountainside where thousands were fed by seven loaves and a few small fish (Matt 15) and everywhere in between we see and hear of God’s faithfulness in providing for his people.

As the song says, “My God shall supply all my needs... Jehovah Jireh cares for me, for me, for me”. The words of this song touch on the apparent personal relationship between its author Merla Watson and her God, who created her. That is who our God is; He is a personal and loving God that cares so deeply for us that he continues to provide for the needs of all those who follow him.

In the ever-changing landscape of the world we live in today, I am sure that any one of us can put together a list of “needs” that we have. We are “needy” people living in a world that tries desperately to fill those needs, often overshadowing the most important need of all, a personal relationship (connection) with the one who cares for us the most.

God in his infinite wisdom provided a way for all of us to be in relationship with him. Through the death and resurrection of his son on the cross, he provided a way for us to be in relationship with him. Jesus stood in our place to fill the need of forgiveness for the sin in our lives, this is the one thing that the world cannot provide.

Through Jesus, we are connected to a ‘network’ that has full coverage, is easily accessible, error free, and provides clear connection and communication with our Father in heaven. There are no limitations to the power of the One God (1G) that has been made available to us. So, who is your provider today? Are you a part of the same 1G network that provides for all your needs? Join today, its free.
